

## Installing the Golo application on Android:

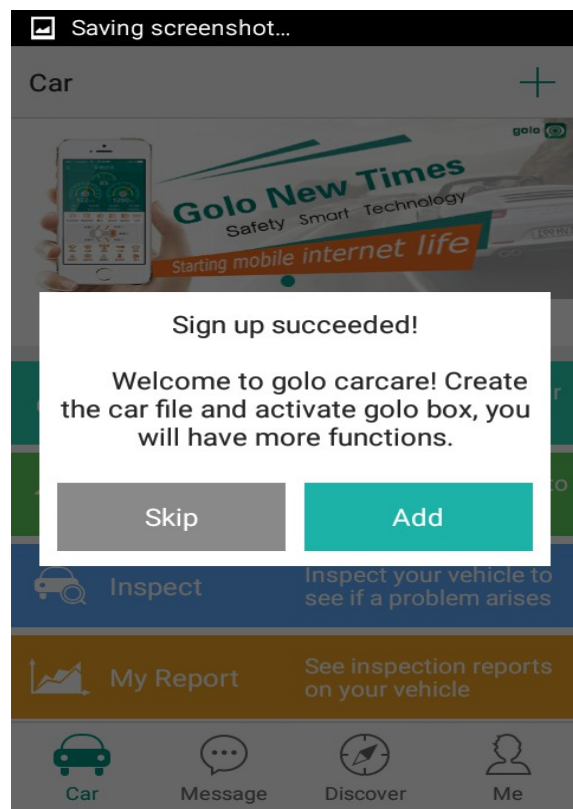

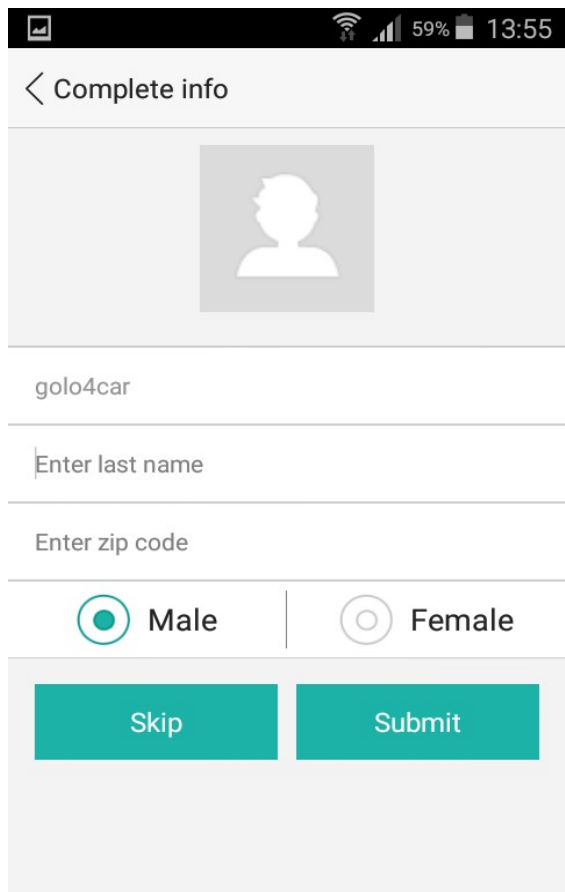

1. Please make sure you have stable internet connexion.
2. Go to "Google Play Store" and look for the application called "Golo Carcare" and download it to your phone.

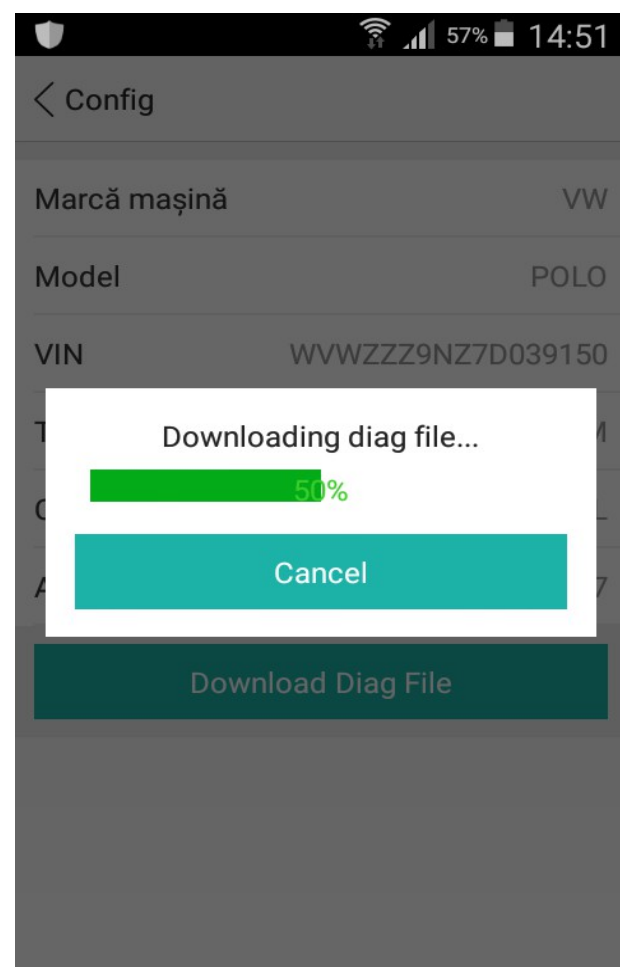

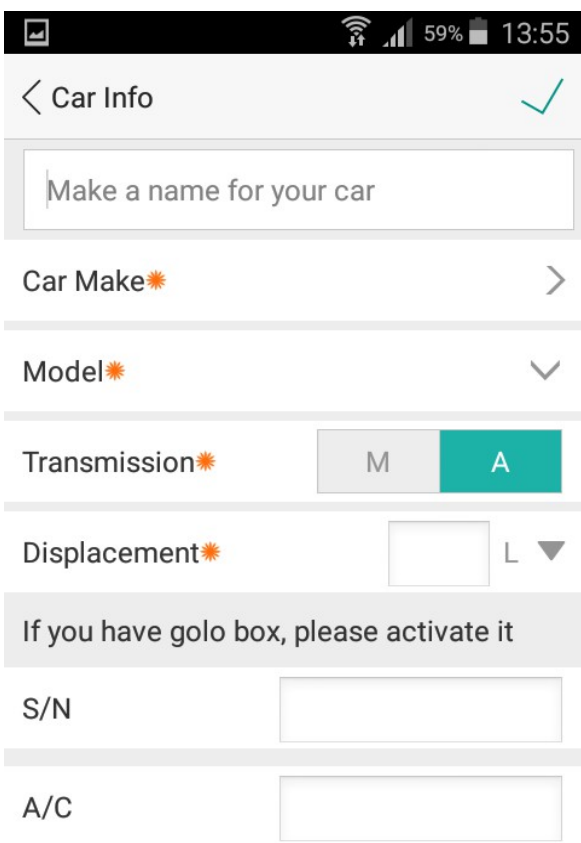

3. Set up a Golo account: please fill up all the necessary information (like country, email address, then verify box and set up a password for the account)

4. Finish setting up the account with the last info: name, last name, zip code, gender.

5. Now please add the information of your car! \*model, VIN no, displacement etc. And activate also your golo box, using the SN and pw provided in the envelope. Finally download the diagnostic file of your car!!

**Warning:** You can modify the vehicle info for only one time, please check the info before go to next step.
